**ABOUT US**

What's different about this foundation?

During his travels in South Africa, Peru and Cambodia, founder Erik Bos realised that everywhere in the world people take a stand for their community, for their neighbours and even for strangers. It seemed to Erik that the less money people have, the more they are willing to give. This unconditional giving comes straight from the heart, in a way that enlightens others to do the same. A true beauty of mankind.

Now...let's see: in the western world, there is a high level of education. Not only in schools and universities, but also in business. In The Netherlands alone there are over 9000 companies specialized in 'organisational development'. They offer companies training programs for their employees. It's no surprise that these training institutes are commercial companies: educating people is both in Europe and in the USA just another way of making money.

Libre Foundation has been founded to combine two great ideas:

The North...	The South...
<ul style="list-style-type: none"> <li>• Training</li> <li>• Improvement of skills</li> <li>• Personal and professional growth</li> </ul>	<ul style="list-style-type: none"> <li>• Taking a stand for other people</li> <li>• Showing compassion</li> <li>• Taking action, even if it does not give you any benefits</li> </ul>

Why not share & expose ourselves by offering professional trainings in the South??? Let's do that!!!

How is it possible that we are self supporting?

There is a growing group of people in this world that want to support others in reaching their goals. Some of them are Dutch. Some of these Dutch are business trainers who train people in developing professional skills.

We asked these business trainers - a still growing group of about 25 professionals - to participate on a voluntary basis and work for Libre Foundation a handful of days per year. They work on training programs that we execute for well paying multinationals. The multinationals choose Libre Foundation and not one of our competitors because we use their money not for our own benefit...but to support your program!

Example:

Philips Netherlands wants a training program for their sales representatives and hires Libre Foundation.

Libre Foundation contacts one of their volunteer trainers - who will take time off from their regular job - to lead & execute the program. The trainer does not receive any payment and by leading the training he or she contributes to a better world.

After completion of the training, Libre Foundation will use the money generated from the training to organise new & almost free trainings in YOUR country.

What to do if you are interested in participating in a course?

Please contact us by email. Tell us who you are, what you do and why you want to participate. Do not be surprised if we show up soon to give you something you will never forget!

Looking forward to seeing you soon!
